

On Sunday 12th August 3-6pm *Capitaine Spottie returns from the grave.....*

Powerful sea forces have been in battle since the beginning of times...

Capitaine Spottie wasn't a collaborative pirate...

He was doomed and trapped in the Netherworld at Roker cave.

He has now gathered forces and is calling his allies to set him free.

You must join forces, find the 10 gates and unlock them.

The Pirate Kingdom is at a stake!

Speed of Reaction comes to Sunderland to take you on an interactive adventure along Roker Seafront. Mobile phones, [QR codes](#), online social networks, films and fast reactions help your team solve puzzles, push you to ask your own questions and explore your surroundings.

What

S.O.R. is an interactive game that allows you to have fun in a team, using technology and creativity. It can also be adapted to take you on the non-speedy route which simply gives you freedom to explore public spaces in different ways or build your own personal narrative experience. S.O.R. Roker will revolve around the history of the area and sea life. A journey in which the players will get immersed in a pirates story. They will be given instructions, clues and allies along the way, and will have to complete tasks to get to the final goal, and to the secret hidden treasure...

Who

This is for anyone that is interested in discovering and exploring digital arts and new meanings of community and space. All ages welcome. Specific youth groups/clubs can contact us direct at info@rednile.org to book their teams to play between 12-2pm and the general public (families and children accompanied by adults etc) can play between 3-5pm and need to book a ticket through the eventbrite weblink below- an after party will take place in Smugglers pub from 6pm onwards! Surfing lessons to be won for the winning team - kindly donated by [Marine Activities Centre Sunderland!](#)

(Scoring will be based on speed and creativity)

How

To participate you will need a team of up to 3 people, one smartphone per team (a smart phone is a mobile phone which has internet and a camera-for example an HTC, i-phone, samsung ACE etc), a QR code reader application installed in your phone
(for more info visit <http://tinyurl.com/7357eaj>)

You will go on an adventure to arrive at different locations along the seafront.
With your mobile phone, you will crack the QR codes appearing in video stories along the way.

Find out more and get your free ticket at
<http://tinyurl.com/d96os4d> (booking essential)

A project commissioned by Rednile Projects as part of the Factory Nights programme and funded by Sunderland City Council <http://tinyurl.com/6v6vyh5>

GET INVOLVED:

Subscribe to the project's website www.speedofreaction.com/

Befriend Spottee (he's new in town) at [www.facebook.com/](http://www.facebook.com/capitaine.spottie)

[capitaine.spottie](http://www.facebook.com/capitaine.spottie)

And follow his seafaring tweets on www.twitter.com/CapnSpottie

Also - Team members needed! We are looking for energetic people to help us and Captaine Spottee create a great event on 12th August – see [http://](http://www.rednile.org/opportunities/)
